

Adrift: An Unforgettable Sci-Fi Alien Romance Set in Earth 4040

In the year 4040, Earth is a very different place. The climate has changed dramatically, and the human race has been forced to adapt to a new way of

life. But even in this new world, there is still room for love, loss, and redemption.

Adrift tells the story of Anya, a young woman who is trying to find her place in this new world. She has lost everything she loved, and she is struggling to find a reason to keep going. But when she meets Jarek, an alien from another planet, she starts to believe that there might be hope for her yet.
