What is Servant Leadership?

Servant leadership is a leadership philosophy that prioritizes the needs and growth of others. Servant leaders view their role as one of service, placing the interests of their team and organization above their own. They understand that true leadership stems from a deep desire to empower others and create an environment where everyone can thrive.

Unlike traditional leaders who rely on positional power and authority, servant leaders inspire their teams through empathy, compassion, and a genuine desire to see them succeed. They listen attentively, value open communication, and recognize the contributions of all team members, regardless of their rank or title.
